

Safety Snapshot Report

Generated Jul 1, 2026 | Central Warehouse

70%

Needs improvement (51-70%)

Business Unit / Company	Demo Logistics LLC	Site / Area	Central Warehouse
Location Type	Warehouse	Inspection date	2026-06-30
Inspector	Taner Cetinkaya	Department	Warehouse Operations

Inspection completed with 70% compliance (Needs improvement (51-70%)), 12 findings, and 13 active corrective actions.

70%

Needs improvement (51-70%)

12

Findings

13

Total actions

13

Active actions

Positive Observations

Good general cooperation from warehouse staff during the walkthrough. Pedestrian walkways were mostly visible, emergency exits were known to the team, and forklift operators were observed wearing seat belts. Housekeeping standards were acceptable in most storage areas.

Inspection Notes

Test inspection completed for app functionality review. Scenario includes sample findings, corrective actions, photo evidence, and export testing. No real workplace data used.

Observation Photo Evidence Summary

Observation photo 1

Observation photo 2

Findings

No.	Section	Finding	Risk
1	Housekeeping	Are materials stored safely without blocking access or creating falling hazards?	Medium
2	Housekeeping	Are waste bins available, suitable, and not overflowing?	Low
3	Walking Surfaces & Access	Are walkways clear of trip hazards and obstructions?	Medium
4	Fire Safety	Are fire extinguishers visible, accessible, and in date?	High

5	Emergency Readiness	Do workers know how to raise an alarm or report an emergency?	High
6	First Aid & Welfare	Is first aider information visible or known to workers?	Medium
7	First Aid & Welfare	Are welfare facilities clean and suitable for the work area?	Low
8	Electrical Safety	Are plugs, sockets, and cables free from visible damage?	High
9	Electrical Safety	Are cables routed to prevent trip hazards and damage?	Medium
10	Vehicle & Pedestrian Safety	Are reversing and manoeuvring activities controlled safely?	High
11	Vehicle & Pedestrian Safety	Are speed limits, signage, or traffic markings visible where needed?	Medium
12	Safety Communication & Reporting	Do workers know how to report hazards, near misses, or incidents?	Medium

Corrective Actions

Housekeeping

No.	Finding	Risk	Owner	Due date	Status
1	Rearrange stored materials so access is clear and items cannot fall.	Medium	Warehouse Supervisor	2026-07-14	Open
2	Provide suitable waste bins and arrange waste removal.	Low	Unassigned	2026-07-30	Open

No.	Finding	Risk	Owner	Due date	Status
1	Weekly warehouse safety briefing attendance records were not available at the time of inspection.	Medium	Warehouse Supervisor	2026-07-14	Open

N/A Answers

Section	Question
Walking Surfaces & Access	Are stairs, ramps, and handrails in safe condition?
Fire Safety	Are no-smoking and hot-work controls being followed where relevant?
First Aid & Welfare	Are heat, fatigue, or basic health concerns being controlled where relevant?
Electrical Safety	Is isolation or lockout used before electrical maintenance work?
PPE	Is task-specific PPE used for eye, hand, hearing, or respiratory hazards?

Checklist Summary

Checklist	Purpose	Progress	Score	Findings	N/A	Active actions
Housekeeping	Checks cleanliness, storage, waste control, and general order.	5/5	60% Needs improvement (51-70%)	2	0	2
Walking Surfaces & Access	Checks safe movement, walkways, doors, steps, and access routes.	5/5	75% Mostly compliant (71-90%)	1	1	1
Fire Safety	Checks escape routes, extinguishers, fire doors, and ignition controls.	5/5	75% Mostly compliant (71-90%)	1	1	1
Emergency Readiness	Checks emergency information, routes, communication, and response arrangements.	5/5	80% Mostly compliant (71-90%)	1	0	1

First Aid & Welfare	Checks first aid, drinking water, welfare facilities, and basic health support.	5/5	50% Urgent improvement (0-50%)	2	1	2
Electrical Safety	Checks cables, sockets, panels, temporary power, and isolation practices.	5/5	50% Urgent improvement (0-50%)	2	1	2
PPE	Checks availability, correct use, condition, and visitor protection.	5/5	100% Strong compliance (91-100%)	0	1	0
Vehicle & Pedestrian Safety	Checks vehicle movement, pedestrian routes, visibility, reversing, and loading areas.	5/5	60% Needs improvement (51-70%)	2	0	2
Safety Communication & Reporting	Checks signage, briefings, reporting, supervision, and visible safety expectations.	5/5	80% Mostly compliant (71-90%)	1	0	1
